### **COMPUTER ORGANIZATION (3-1-0 )**

In computer engineering, microarchitecture, also called computer organization and sometimes abbreviated as  $\mu$ arch or uarch, is the way a given instruction set architecture (ISA), is implemented in a particular processor. A given ISA may be implemented with different microarchitectures; implementations may vary due to different goals of a given design or due to shifts in technology.

### **Microarchitecture - Wikipedia**

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi.. Network computer devices that originate, route and terminate the ...
