Optical mark recognition (also called optical mark reading and OMR) is the process of capturing human-marked data from document forms such as surveys and tests. They are used to read questionnaires, multiple choice examination paper in the form of lines or shaded areas.

Optical mark recognition - Wikipedia

The Defense Language Proficiency Test (or DLPT) is a battery of foreign language tests produced by the Defense Language Institute and used by the United States Department of Defense (DoD). They are intended to assess the general language proficiency of native English speakers in a specific foreign language, in the skills of reading and listening. An Oral Proficiency Interview (OPI) is ...
