Co Author Kolmetz Handbook of Process Equipment Design

Within industry, piping is a system of pipes used to convey fluids (liquids and gases) from one location to another. The engineering discipline of piping design studies the efficient transport of fluid.. Industrial process piping (and accompanying in-line components) can be manufactured from wood, fiberglass, glass, steel, aluminum, plastic, copper, and concrete.

Piping - Wikipedia

Pipe Structure "static" design, not Layout design. Limitations: Code, Pressure, Temperature, How long is the plant lifetime, What is the plant reliability, etc..

WBDG is a gateway to up-to-date information on integrated 'whole building' design techniques and technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.
