Green chemistry (sustainable chemistry): Design of chemical products and processes that reduce or eliminate the use or generation of substances hazardous to humans, animals, plants, and the environment.

Note 1: Modified from ref. to be more general. Note 2: Green chemistry discusses the engineering concept of pollution prevention and zero waste both at laboratory and industrial scales.

NEET 2019 SYLLABUS – The NEET 2019 will be conducted by National Test Agency (NTA) from the following year i.e 2019. The syllabus has been released under the guidelines of the agency and its authorities. The syllabus has been released online so the candidates can check the same from the official website or the link which has been provided below.

NEET 2019 Syllabus for Physics, Chemistry, Biology

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

SCOPE OF THE JOURNAL Analytical Chemistry is devoted to the dissemination of original knowledge in all branches of analytical chemistry. Fundamental articles may address the general principles of chemical measurement science

Last Updated December 5, 2018 Manuscript Submission

Humans have 60-70 oxygen-dependent oxygenases, of which some are important therapeutic targets. A priority in the development of oxygenase inhibitors is to identify scaffolds selective for a particular enzyme, made challenging by the highly conserved oxygenase active sites.
