

the multilateral development banks pdf

A multilateral development bank (MDB) is an institution, created by a group of countries, that provides financing and professional advising for the purpose of development. MDBs have large memberships including both developed donor countries and developing borrower countries. MDBs finance projects in the form of long-term loans at market rates, very-long-term loans (also known as credits) below ...

International financial institutions - Wikipedia

A development finance institution (DFI) or development bank is a financial institution that provides risk capital for economic development projects. They are often established by governments or charitable institutions to provide funds to projects that would otherwise not be able to get funds from commercial lenders.
