Castells is a professor of urban geography at Berkley. He has written a number of books and articles about geography, the city, and the information society, including a three-volume analysis of contemporary capitalism, titled *The Information Age*. Garnham (2004, p. 165) refers to this as "the most sophisticated version" of the theory of the information society.

Many sources of data are PDF files. It is possible to convert tables from such files into Excel and then manipulate the data as required. The conversion process involves moving the data first into Word and then into Excel.

How to import a table from PDF into Excel | The Economics

A social network is a social structure made up of a set of social actors (such as individuals or organizations),

sets of dyadic ties, and other social interactions between actors. The social network perspective provides a set of methods for analyzing the structure of whole social entities as well as a variety of theories explaining the patterns observed in these structures.
