Human overpopulation (or population overshoot) occurs when the ecological footprint of a human population in a specific geographical location exceeds the carrying capacity of the place occupied by that group. Overpopulation can further be viewed, in a long term perspective, as existing if a population cannot be maintained given the rapid depletion of non-renewable resources or given the ...

The problem of evil refers to the question of how to reconcile the existence of evil with an omnipotent, omnibenevolent and omniscient God (see theism). An argument from evil claims that because evil exists, either God does not exist or does not have all three of those properties. Attempts to show the contrary have traditionally been discussed under the heading of theodicy.
