At Challenge Success, we believe that our society has become too focused on grades, test scores, and performance, leaving little time for kids to develop the necessary skills to become resilient, ethical, and motivated learners. We partner with schools, families, and communities to embrace a broad definition of success and to implement research-based strategies that promote student well-being ...

Yet our knowledge of the effects of school climate on learning has not been translated into our current accountability systems. Although No Child Left Behind is full of rhetoric about the importance of character education and supportive learning environments, it only requires accountability systems to measure reading, math, physical violence, and (recently) science scores.

## **Assessment Crisis: The Absence Of Assessment FOR Learning**

Among the many challenges teachers face, often the most difficult is how to engage students who seem unreachable, who resist learning activities, or who disrupt them for others. This is also one of the challenges that skilled teachers have some control over. In my nine years of teaching high school ...
