Whoever you are, wherever you are, water is your human right. Find out more about the World Water Day campaign and share information and resources.

UN-Water: World Water Day 2019 - Water for All

Drinking Water. New York City drinking water is world-renowned for its quality. Each day, more than 1 billion gallons of fresh, clean water is delivered from large upstate reservoirs "some more than 125 miles from the City" to the taps of nine million customers throughout New York state.

Drinking Water - Welcome to NYC.gov | City of New York

World Water Day is an international observance day. The intention is to inspire people around the world to learn more about water-related issues and to take action to make a difference.

4 RBC Environmental Blueprint April 2014 A changing climate means more than just a rise in average temperature. It also means an increase in extreme and unpredictable weather events, changes in water quality and availability in different regions, ecosystem impacts, and effects

RBC Environmental Blueprint

Forest-driven water and energy cycles are poorly integrated into regional, national, continental and global decision-making on climate change adaptation, mitigation, land use and water management.
