

you cant catch me pdf

The cant of a railway track or camber of a road (also referred to as superelevation, cross slope or cross fall) is the rate of change in elevation (height) between the two rails or edges. This is normally greater where the railway or road is curved; raising the outer rail or the outer edge of the road providing a banked turn, thus allowing vehicles to maneuver through the curve at higher speeds ...

Cant (road/rail) - Wikipedia

We tend to trust what goes on in our brains. After all, if you can't trust your own brain, what can you trust? Generally, this is a good thing – our brain has been wired to alert us to danger, attract us to potential mates, and find solutions to the problems we encounter every day. However ...
